PowerLite® 1776W
Multimedia Projector

Wireless, Widescreen Performance in the Ultimate Ultraportable.

Its ultra-slim design, brilliant, widescreen performance and easy, wireless connectivity (802.11 b/g/n) make the EPSON® PowerLite 1776W the ultimate choice in portable projectors. The PowerLite 1776W easily delivers HD video content or images from your widescreen notebook with native WXGA (1280 x 800) resolution. Couple that with 3000 lumens color light output and 3000 lumens white light output,[1] and the results are truly amazing. The PowerLite 1776W weighs just 3.8 lb and is just 1.7" tall, so you can take it virtually anywhere. Connecting is simple, on a Mac® or PC, with USB Plug 'n Play instant setup. A Quick Connect wireless USB key is included for fast pairing with wireless connectivity. You can even use a USB memory device and deliver your presentation PC-free or connect via HDMI. Instant automatic keystone correction — both horizontal and vertical — and the convenient Screen Fit feature make setup easier than ever. Plus, the PowerLite 1776W is equipped with a long life lamp that lasts up to 5000 hours.[2] So, you get amazing performance, ease of use and brilliant output — all from a super-slim projector.

- **Lightweight and travel friendly** — thin as a laptop; weighs just 3.8 lb
- **The ultimate choice in ultra-bright widescreen performance** — 3000 lumens color/white light output;[1] native WXGA (1280 x 800) resolution (16:10)
- **Cutting-edge connectivity** — USB Plug 'n Play — Windows® and Mac compatible; HDMI input
- **Wireless included** — with wireless LAN module and Quick Connect wireless USB key
- **Fast, easy setup** — auto horizontal and vertical keystone and Screen Fit quickly adjust the image to fit the screen, even if the projector is placed off-center

The best-selling projectors in the world

Epson understands business and education and has a solution no matter what your situation. Built with image quality and reliability in mind, EPSON projectors enhance communication and inspire collaboration, while offering a low total cost of ownership. From long-throw projectors to ultra-short-throw and all-in-one solutions, Epson has the model made for you.

PowerLite® 1776W
Multimedia Projector

3LCD technology — for quality and color that's beyond amazing

Innovative technology with proven reliability

- 3 chips for full-time, vibrant color
- 25% less electricity required per lumen of brightness when compared to 1-chip DLP projectors[3]
- Over 20 years of road-tested reliability built into every projector

WXGA (1280 x 800), 16:10 resolution — for remarkable detail and widescreen convenience

The PowerLite 1776W with WXGA resolution is ideal for use with the latest-generation widescreen computers and great for projecting a wide variety of content. Its native 16:10 aspect ratio allows you to fully utilize the capabilities of your widescreen computer, giving you:

- 30% more image area than a 4:3 image
- 10% more image area than a 16:9 image

The PowerLite 1776W still allows you to display 4:3 and 16:9 content without losing image quality.

SVGA
800 x 600
Meets basic projection needs

XGA
1024 x 768
Ensures sharper detail

WXGA
1280 x 800
Offers higher quality and is ideal for widescreen (16:10) display

Wireless included — quick, easy and convenient (now with 802.11 b/g/n)

Epson's innovative approach to wireless capabilities is evident in the included Quick Connect wireless USB key, which offers virtual plug-and-play wireless connectivity. Simply plug the USB key provided into the projector. In a matter of seconds, it downloads the information necessary for setup and tells you when to remove the key. Next, simply plug the key into your computer. Soon, you are wirelessly displaying your presentation. It's fast, safe and convenient. And, when you're done, simply disconnect the USB key and your original settings are restored, with no re-configuration required. Now, you can wirelessly project your presentations, hassle-free, without carrying and connecting bulky VGA cables.

EPSON iProjection™ App — project documents and photos wirelessly from your Apple® device

Display and control content wirelessly from your iPhone®, iPad® or iPod touch® with the EPSON iProjection App and any nearby wireless or networked Epson projector[4]. Note: Included wireless LAN module needed to operate the EPSON iProjection App.

Amazing light output

LUMENS
3000 COLOR LIGHT **3000** WHITE LIGHT
TRUE-TO-LIFE COLOR

- 3000 lumens color light output and 3000 lumens white light output[1]
- Bright, balanced, colorful images
- Incredible image quality and performance to meet your expectations
- White light output that's measured using ISO 21118 (a more rigid standard than the outdated ANSI lumens rating used by competitive products)

# PowerLite® 1776W
Multimedia Projector

USB Plug 'n Play instant setup — compatible with Windows and Mac

- No more computer function keys or bulky VGA cables needed
- Just plug in a standard USB cable and instantly project
- Instantly view images on both the screen and your computer; one standard USB cable does it all

Fast, easy setup and control

- Automatic keystone correction (both horizontal and vertical) — makes setup and placement a snap, even if the projector is placed off-center from the screen
- Screen Fit — automatically adjusts to fill the screen size you are using
- Instant Off® — no cool down time required, so it's ready to shut down when you are
- A/V Mute Slide — control your presentation; it's right at your fingertips
- Sleep Mode — set from 1 to 30 minutes to save energy when the A/V Mute Slide is closed or no signal is detected
- 1.2x optical zoom — offers great positioning flexibility to fit large or small rooms
- Direct Power On/Off — power the projector on and off with the flip of a wall switch

Screen Fit

Convenient web remote control feature

- Virtual projector remote control via a web browser (works when projector is connected to the network)
- Control power on/off, source, volume, page up/down functions and more from your computer
- Supports multiple web browsers (Windows and Mac compatible)
- No special applications or software necessary

Protect your investment with Epson's long-life filter

Because we know how important it is to protect your valuable investment, Epson has designed our 3LCD projectors with a long-lasting filter that gives you added peace of mind. The filter helps limit the amount of dust that can settle on the internal components and reduce the lamp life or dull the image. When the time comes to clean or change the filter, just open the door, vacuum the dust off or replace the filter, close the door, and you're done.

PowerLite® 1776W
Multimedia Projector

Additional Features/Benefits

- **PC-free presentations** — convenient USB connectivity allows you to display directly from a USB memory device
- **HDMI connectivity** — makes connecting to HDMI devices a snap
- **Added features, no added cost** — built-in closed captioning capabilities
- **Carrying case included** — for easy portability and protection when stored
- **Message broadcasting**[5] — broadcasts customized images/alerts over the network for announcements or instructions
- **Filters to protect your investment** — with easy access for hassle-free maintenance

EPSON PowerLite projectors

From the world leader in high performance projectors, EPSON PowerLite projectors make it easy to achieve rich, vibrant presentations in any classroom or boardroom with Epson's 3LCD, 3-chip technology. Powerful features such as built-in closed captioning and advanced connectivity options offer greater flexibility, without any added costs. Enjoy hassle-free setup on your computer with one-step Plug 'n Play USB capabilities. And, minimize your costs even more with a long life lamp that lasts up to 5000 hours.[2]

Getting There With Cleaner Air

---

*   XGA (1024 x 768)

**   WXGA (1280 x 800)

1   Color and white light output will vary depending on mode selected. White light output measured using ISO 21118 standard.

2   Lamp life will vary depending upon mode selected, environmental conditions and usage. Lamp brightness decreases over time.

3   Data source: ProjectorCentral.com Jan. 2012. Average of 1122 shipping models for which the manufacturers provided lumens and total power data, all resolutions and brightness levels. Energy efficiency was measured as wattage per lumen. It was measured for both 3LCD and 1-chip projectors in each of five brightness segments. 3LCD projectors averaged less required electricity per lumen in each of the five segments.

4   Check your owner's manual to determine if a separate wireless LAN module must be purchased separately to enable wireless connection on your EPSON projector. EPSON projectors can be networked either through the Ethernet port on the projector (check model specifications for availability) or via wireless connection. All EPSON projectors are not able to be networked. Availability varies depending on model.

5   Works only with EPSON projectors that support presentation over the network capability.

6   See our website for convenient and reasonable recycling options at www.epson.com/recycle

7   SmartWay is an innovative partnership of the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency.
